

49th STREET

1206

This is a floor plan for unit 1206. The unit is a large rectangular space with a small alcove on the left side. The alcove contains a staircase with 'DN' (down) and 'UP' (up) directions, and a door labeled 'TEL CL'. The main area of the unit has a door on the left wall. The right wall is adjacent to 49th Street. There are four circular symbols, likely representing light fixtures, located on the walls: one on the left wall, one on the right wall, one on the bottom wall, and one on the top wall. A small square symbol is located on the top wall near the door. A large 'X' is drawn over the top-left corner of the unit, possibly indicating a structural feature or a placeholder for a drawing.
